Library Resources for Faculty & Staff

MORE than ever before.

IUPUI UNIVERSITY LIBRARY

Library Resources

Databases
The library website is a portal for more than 700 databases, both multidisciplinary and subject-specific, that provide access to articles and data for download or online reading. iupui.libguides.com/az.php

Interlibrary Loan
If we don't have what you are looking for, we can find it and get it delivered at no cost to you. Items include journal articles, books, conference proceedings, books chapters, Audio Visual material, and more. Unfortunately, textbooks cannot be requested through interlibrary loan. ulib.iupui.edu/ILL

OneSearch
The main search bar on the IUPUI University Library landing page, OneSearch is a tool that simultaneously searches IUCAT (library catalog), scholarly article databases, news and popular publications, and other library holdings. ulib.iupui.edu

IUCAT
To find books and media owned by the IUPUI University Library and other IU Libraries statewide, use IUCAT. You will be able to find books, ebooks, journals, microfiche, sound recordings, musical scores, maps, streaming video, and more. The 'Request This' option allows you request print books from other IU campuses or to put IUPUI books on hold. iucat.iu.edu

Off Campus Access
Activate an IUPUI virtual private network (VPN) connection. kb.iu.edu/d/ajrq

Subject Liaison Librarians

Subject Liaison Librarians work to support teaching, learning, and research in every school and discipline at IUPUI. If you would like to improve the quality and credibility of sources used in student work and introduce your students to discipline-specific resources, invite your Subject Liaison Librarian to lead information literacy sessions for classes of any size, in-person or online.

Information Literacy Instruction

A Subject Liaison Librarian could come into your class to teach students about:
- Thesis/Topic Development
- Research Strategies
- Finding & Evaluating Sources
- Citation Processes & Norms, including plagiarism and more

Learning outcomes for sessions are tied to information literacy concepts (the set of skills needed to find, retrieve, analyze, and use information effectively), the PLUS+ and the Principles of Graduate and Professional Learning.

Subject and Course Guides

To make library resources more navigable, subject liaison librarians create and maintain subject guides with a list of resources tailored to specific disciplines. These guides describe ways of finding information, provide detailed information about databases, and contain learning objects like how-to videos and infographics. Subject guides are available on the Library's website and integrated into Canvas through the Library Research Guide tab in course sites. Librarians can also provide additional course support including developing course-specific guides and integrating information literacy tutorials and quizzes into Canvas.

Consultations

Subject liaison librarians are also able to consult on assignment and syllabus design, provide research appointments for individuals and small groups, and more. Learn more at ulib.iupui.edu/library-instruction
Find your Subject Liaison Librarian: iupui.libguides.com/librarians

Course Reserve

Course instructors can make textbooks and other course materials available freely so that students have the opportunity to use them without purchasing personal copies. When an instructor completes a course reserves request, the Library is able to lend hard-copy course materials to students for short-term checkout from the Service & Information Desk. reserves.ulib.iupui.edu

Open Access

IUPUI University Library boosts the impact of scholarly works authored by IUPUI faculty and graduate students by providing open access (OA) dissemination. Recent studies on citation impact have found: scholarly OA articles are cited 18% more than articles published behind a paywall (Piwowar, et al., 2018). The Library helps IUPUI authors find readers and get cited by supporting a range of low-labor, no-cost OA services. Key features of these services include: IUPUI ScholarWorks, the OA fund, and Open Journals at IUPUI.

Scholarly publications are expensive. Buying access to an article in a scholarly journal can cost $30 or more. The good news is that while you're at IUPUI, you have access to subscription journals in our databases and through interlibrary loan. The even better news is that IUPUI is working to increase free, open access to scholarly literature for everyone.

You can easily find free articles written by IUPUI faculty and graduate students in IUPUI ScholarWorks. Also, you can find free versions of expensive articles by installing the Unpaywall browser plugin for Chrome and Firefox: unpaywall.org ulib.iupui.edu/digitalscholarship

Research Services

The IUPUI University Library Center for Digital Scholarship enriches the research capabilities of scholars at IUPUI, within Indiana communities, and beyond.
ulib.iupui.edu/digitalscholarship

Digitization
Taking real world objects, such as letters, photos, or even whole buildings, and scanning them for permanent online display.
ulib.iupui.edu/digitalscholarship/digital_scholarship_fund

Publishing
Working with faculty and community partners to launch new journals or transition existing journals from being paid subscriptions to fully free to read.
ulib.iupui.edu/digitalscholarship/open_access_journals

Promotion and Tenure Support
Offering workshops and individual consultations to help you manage your digital identity, share your scholarship, gather and present a rich array of evidence, and use associated tools to make your case for advancement, funding, and awards.
ulib.iupui.edu/digitalscholarship/impact

Data Support
Helping you identify data management needs, and recommend best practices for ensuring your data is usable now and in the future. This includes developing procedures and training to resolve a specific problem, recommending and developing tools, or customizing a workflow for your project from data collection through archiving.
ulib.iupui.edu/digitalscholarship/datasupport

Digital Humanities
Conducting consultations at all stages of the development of a digital humanities project, from the creation to publication of your content. Are you working on humanities research that could benefit from being shared online in a unique way? From tracing the mysterious history of the word 'Hoosier' across multiple states using an interactive map to analyzing the text of Civil War letters, we can enhance almost any type of humanities research.
ulib.iupui.edu/digitalscholarship/digitalhumanities

OER
Open educational resources (OER) are freely accessible online teaching and learning materials. They can be videos, textbooks, quizzes, learning modules and more. Using OER in your classroom can save you time and your students money. Take a look and see what is available in your discipline and contact the Librarian OER liaison for additional assistance. iupui.libguides.com/OER
